What's the name of the SOP that covers Pre-flight checks?

The SOP that covers Pre-flight checks is titled "Air Force Mission Briefing & Debriefing" with the SOP Number: AF-OPS-002.

explain this to me in a little more detail?

Certainly! The "Air Force Mission Briefing & Debriefing" SOP (AF-OPS-002) outlines the standardized procedures for conducting mission briefings and debriefings for air operations. It ensures mission effectiveness, safety, and intelligence gathering.

Pre-Flight Checks (as part of Mission Execution)

1. Pilots Conduct a Walk-Around Inspection:

- Pilots are responsible for visually inspecting the aircraft to ensure it is in proper condition for the mission. This includes checking for any visible damage or issues that could affect the flight.

2. Ground Crew Completes Fueling & Arming

Security

ISO 27001 certified

We are proud to announce that we are **ISO 27001 certified**.

We have had an active **Information Security Management System (ISMS)** since the beginning of 2024, which we have certified according to the ISO 27001 standard under the guidance of an external party.

This certification underlines the importance we attach to information security at all levels within the organization and provides a solid foundation of trust. Because both our ISMS and the scope of our ISO 27001 certification encompass our entire company, we have a dedicated Information Security Officer.

Together with the compliance team, he monitors the implementation and compliance of the ISMS.
